

THE KEURIG® B3000SE: This, our largest and most advanced brewing system, is packed with features. The Keurig® B3000SE is the way large offices make the coffee you, your office and your customers will love.

KEEP IT CLEAN: K-CUP® PACK AUTO-EJECT & EASY-TO-EMPTY BIN

After brewing, each K-Cup® Pack auto-ejects and drops into a convenient K-Cup® Pack storage bin for later disposal. The brewer alerts you when the bin is full. If more used K-Cup® Pack storage is needed, a platform with a 70 K-Cup® Pack bin can be added.

AUTOMATIC REFILLS: DIRECT-WATER-LINE PLUMBING

With the brewer directly connected to a water-line, you can brew a new cup of coffee every 60 seconds without having to refill.

READ ALL ABOUT IT: EASY-TO-READ LCD INTERFACE

It's foolproof. The B3000SE's interface walks you through the brewing process in easy-to-follow steps, in your choice of three different languages — English, Spanish or French. Along the way, you can select from four brew sizes. There's even a hot water only selection.

SATISFY EVERY TASTE: FOUR BREW SIZES

Choose from four different brew strengths — from an intense 4 oz. brew that is ideal for iced coffee or espresso-like drinks, all the way to our milder 10 oz. brew. Because tastes differ.

FLIP AND FILL: DRIP TRAY FLIPS FOR TRAVEL MUGS

The large-capacity drip tray flips to accommodate travel mugs. It is designed for easy cleanup and versatility, plus it is dishwasher safe and easy to remove.

AN EYE FOR DETAILS: MUG AND K-CUP® PACK SENSORS

Can't think before your first cup? This brewer can. The B3000SE alerts you if there is no mug or K-Cup® Pack present, so there are no spills or accidental brewing without a K-Cup® Pack.

HARD WORKER: COMMERCIAL GRADE

This brewer is a rugged machine, built to commercial specifications and UL-Listed for commercial use.

DRAIN AND STORE: DRAINABLE INTERNAL HOT WATER TANK

You can't get this from a home brewer. Only Keurig® commercial brewers offer the option to easily drain and remove water from the internal hot water tank for long-term storage.

RECOUP COSTS: A VENDING OPTION

Make great coffee. And offset some of your costs. The Keurig® B3000SE can be paired with a coin changer that takes US and Canadian coins: nickels, dimes, quarters and Canadian dollars.

KEURIG® COMMERCIAL BREWERS

B130

Designed for the hospitality industry, the B130 is the ideal choice for hotel in-room brewing.

KEURIG IS NOT JUST ABOUT GREAT COFFEE. IT'S ABOUT THE WAY GREAT COFFEE IS MADE.

Keurig has redefined brewing by combining state-of-the-art brewer technology with our unique and patented K-Cup® Pack. Within the K-Cup® Pack are all of the essential elements for brewing a single, perfect cup of coffee. So you get coffee you love, from a selection of over 200 varieties. But what you don't get is mess or fuss. It's that simple.

- 1 LIFT** the brew handle and place K-Cup® Pack
- 2 PLACE** mug and close the handle
- 3 SELECT** one of FOUR cup sizes (4 oz., 6 oz., 8 oz., or 10 oz.) and press the button

CHOOSE

Choose from over 200 varieties of gourmet branded coffees, teas and hot cocoa.

BREW

It's never been easier to brew the perfect cup of coffee in under a minute.

ENJOY®

Here it is. The coffee (or tea, or hot cocoa) you love. Easy, convenient and quick, with no mess to clean up.

SHARE THE LOVE: 200+ VARIETIES

Why should everyone fill their cups from the same old boring pot when they can have a choice? There are over 200 varieties of coffee, tea, hot cocoa or brew over ice beverages available from over a dozen of the world's finest coffee and tea brands. So you can stock as many varieties as you want. With Keurig, everyone can brew the coffee they love.

HOW THE K-CUP® PACK WORKS

- Oxygen, light and humidity are coffee's worst enemies, so our airtight lid and cup design seals in the freshness of the just-ground coffee.
- To make a perfect cup of coffee, the pressurized water is controlled at the ideal brewing temperature.
- Each roaster specifies the exact amount and grind within the K-Cup® Pack, all to ensure coffee you'll love.
- Technologically advanced filter inside the K-Cup® Pack provides optimum results.
- All brewing takes place within the K-Cup® Pack itself, so there is no residual coffee left behind to affect the flavor of the next cup.
